Soumyajit Das

Soumyajit2000-web

Highly motivated software engineering graduate with a strong academic background in computer science and a passion for developing innovative software solutions. Skilled in a range of programming languages, including JavaScript, and C++, and experienced in using software development tools such as Git and JIRA. Proficient in software engineering principles such as Agile methodology, software testing, and code review. Strong communication and collaboration skills, with a proven ability to work effectively in cross-functional teams. Seeking an entry-level software engineering position that will allow me to apply my technical skills and contribute to the development of cutting-edge software products.

WORK EXPERIENCE

SigiloTech

(May 01, 2022 - April 06, 2023)

Software Engineer

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.
- Leading a team to create a management system for a hospital.
- Created APIs in backend with proper documentation to perform CRUD operations in web applications.
- Implemented JWT authentication systems along with support for two-factor authentication in web applications.
- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
- Provided guidance and mentored less-experienced staff members.

SigiloTech

(December 22, 2021 - April 30, 2022)

Software Developer Intern

- Worked on creating complex and reusable components according to the requirements.
- Connected APIs in web applications to interact with backend.
- Designed web pages using sass and tailwind css to meet the requirements.
- Fixed bugs in existing websites and implemented enhancements that significantly improved web application performance. Wrote clear, clean code for various projects.

EDUCATION

Regent Education And Research Foundation

(June 04, 2018 - June 30,

Bachelor of Technology, Computer Science and
Engineering

2022)

8.67

Bidhan Chandra Institution

(April 04, 2016 - May 31, 2018)

Higher Secondary Education, Science

6.2

PROJECTS

Project Manuscript

(August 11, 2021 - Present)

Online Blogging Platform

- Designed complex reusable components using React JS.
- Created login systems in backend.
- Created API to perform CRUD operations.
- Created text customization components to modify article texts.
- Created Profile customizations.
